PROFESSIONAL SUMMARY

Cybersecurity student with 3.85 GPA, hands-on experience in troubleshooting, Linux administration, and building/deploying web apps. Built a React/TypeScript portfolio site with an Express backend and run a home lab using Docker, Pi-hole, and Wireshark for network testing. Seeking an IT/Cybersecurity internship focused on technical support, systems, and security fundamentals.

EDUCATION

B.S. Cybersecurity (Cyber Defense Concentration), *University at Albany, SUNY*

09/2024 – 05/2028 | Albany, NY

GPA 3.85

Dean's List (Spring 2025)

Relevant Coursework: Technical Foundations of Cybersecurity, Programming Essentials for Cyber, Information Security Assurance, Database Fundamentals for Security

PROJECTS

Personal Website – johannehesse.dev, *React, TypeScript, Tailwind CSS, Radix UI, Express, Framer Motion*

- Built and deployed a responsive personal site to showcase projects and skills
- Integrated a functional contact form with validation and email delivery
- Used Radix UI and Framer Motion to enhance interactivity and user experience
- Set up an Express.js server for routing and static content delivery

Home Lab

- Administer a Linux home server and deploy services using Docker (basic configuration, container lifecycle, uptime checks)
- Host a simple local file-sharing service and validate connectivity and access during setup changes
- Configure Pi-hole DNS filtering to improve network hygiene and reduce ad/tracker traffic
- Capture and filter traffic with Wireshark (DNS/HTTP/TCP) to confirm expected behavior and support troubleshooting

Weather App - Python

- Developed a Python-based application that fetched real-time weather data using an API
- Implemented data handling and API requests, building a functional tool to display weather conditions
- Gained experience with programming logic, debugging, and implementing clean code

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C++

Web/Dev: React, TypeScript, HTML/CSS, Tailwind CSS, API Integration

Operating Systems: Windows, macOS, Linux

Networking/Security: Wireshark, Network Troubleshooting, Technical Support

SOFT SKILLS

Customer Service

Communication

Time Management

Problem Solving

Team Collaboration

EMPLOYMENT HISTORY

Commercial Driver, *AutoZone*

08/2025 – Present | New Rochelle, NY

- Delivered 20–30 customer orders per shift with consistent on-time performance
- Verified and processed over 100 product orders weekly, improving speed and accuracy
- Resolved inventory issues in collaboration with 5–7 person team

Remote Customer Service Representative, *U-Haul*

03/2022 – 08/2022 | New Rochelle, NY

- Handled 40–60+ inbound support calls daily, resolving user issues in real time
- Navigated complex service requests using internal CRM systems
- Completed 40+ hours of remote training in customer support and technical documentation

CERTIFICATES

CompTIA Network+

In Progress

Forage

- Mastercard Cybersecurity (Oct 2024); EA Software Engineering (Oct 2024)

ORGANIZATIONS

Cyber Defense Organization, *Member*

09/2025 – Present | Albany, NY

- Participate in cybersecurity training, competitions (e.g., CCDC), and career development events
- Collaborate on team activities focused on network defense and basic threat detection concepts
- Contribute to GitHub-based content and coordinate with members via Discord
